Additional Course Information

Topical Outline: Each offering of this course must include the following topics (be sure to include information regarding lab, practicum, and clinical or other non-lecture instruction).

Students are initially taught skills prior to attending off campus clinical setting. Success on selected proficiency check-offs are mandatory to progress to clinical setting. Students care for patients with instructor guidance. Clinical settings are utilized for students to demonstrate application of theory and laboratory concepts being taught in other courses. Students in this course are transitioning from LVN to RN, in the first semester of program.

Course Learning Outcomes:

Learning Outcomes – Upon successful completion of this course, students will:

1. Apply the theory, concepts, and skills involving specialized materials, tools, equipment, regulations, laws, and interactions within and among political, economic, environmental, social, and legal systems associated with the occupation and the business/industry.
2. Demonstrate legal and ethical behavior, safety practices, interpersonal and teamwork skills, and appropriate written and verbal communication skills using the terminology of the occupation and the business/industry.
3. Illustrate the behavior and judgments needed to successfully perform as a member of the profession, provider of patient-centered care, patient safety advocate, and member of the health care team.
4. Demonstrate legal and ethical behavior, safety practices, interpersonal and teamwork skills, and appropriate written and verbal communication skills using the terminology of the occupation and the business/industry.

Methods of Assessment:

Direct Patient Care
Simulation
External Examinations
Final Clinical Evaluation

Required text(s), optional text(s) and/or materials to be supplied by the student:

Lippincott Course Point for Nursing Concepts - Customized e-book package includes Texas Nursing Concepts and Lippincott Nursing Advisor
