IV. Suggested Course Maximum - 35

V. List any specific spatial or physical requirements beyond a typical classroom required to teach the course.

None

VI. Course Requirements/Grading System – Describe any course specific requirements such as research papers or reading assignments and the generalized grading format for the course

After reading the text books and participating in class lectures and discussions, students will keep a record of their lab assignments in a binder or notebook that is graded according to a rubric and students are evaluated by the director of the external learning site on a departmental rating form so that the instructor can formulate the student’s lab grade.

The final calculations in the grade are

- 30%-Student term project of weekly lab assignments/ lab performance
- 20%-Students are evaluated according to their attendance and participation in class discussions and participation in weekly in-class reflections
- 50%-Written Tests (midterm with one essay question, final exam, and other tests deemed necessary by the instructor).

Grading Scale:

- A-90-100%
- B-80-89%
- C-70-79%
- D-60-69%
- F-59 and below
