III. Required Text(s), Optional Text(s) and/or Materials to be Supplied by Student.

Ayers, et al., *American Passages Combined Advantage Series; 4th ed.* Cengage (Publisher) required in all on-line and face-to-face courses.

Individual titles selected by the instructor available in library collection. Primary documents may be distributed to students, made available from instructor web site, or placed on reserve in the library.

IV. Suggested Course Maximum - 35

V. List any specific spatial or physical requirements beyond a typical classroom required to teach the course.

No special requirements for face-to-face course. Students must have access to all appropriate technology for www course as well as courses taught by I-TV.

VI. Course Requirements/Grading System – Describe any course specific requirements such as research papers or reading assignments and the generalized grading format for the course

The grading scale used for all tests, papers, and projects will be as follows:

- 90% to 100% = A
- 80% to 89% = B
- 70% to 79% = C
- 60% to 69% = D
- Below 59% = F

Instructors may also use a point system to determine final scores as long as this point system is clearly outlined in the instructor’s syllabus.

**Writing Project(s) – 25-50%**

(may include research papers, exam essays, book/film reviews, and/or response papers)

**Exams – 25-75%**

(may include quizzes, unit exams, exam essays, and/or oral presentation)

**Participation – 0-50%**

(may include daily assignments, projects, attendance, and/or class participation)

**Departmental Post-test – 10-25%**

Professors will use a combination of the above totaling 100% and enumerate the exact breakdown on the student syllabus.

Instructors may use the narrative/lecture method of instruction to impart factual information and to suggest to students the different interpretations of United States history. The narrative method is also useful for setting the stage for class discussions.

Class discussion between students and instructors is encouraged for the purpose of developing in students the ability to speak before others about historical events. Class discussions should arise from the readings that students complete and from points of interest and the interpretation of facts that emerge in class, especially those relevant to students.

Students will be required to complete written work or to prepare oral presentations to further elaborate or explain what has been presented and discussed by the instructor. These requirements are designed to challenge the student to analyze and critique the material presented. The written work may be in the form of essay test topics, book reviews, reports on articles in scholarly journals, or other written assignments as assigned by the instructor. Oral presentations may be designed as debates, informative overviews, or persuasive monologues.
Minimum requirements include the following:

1.) Attend class in accordance with college policy and as stipulated by the instructor.
2.) Complete appropriate reading assignments made by the instructor.
3.) Complete appropriate writing assignments based on the readings, classroom presentations and discussion.
4.) Complete oral presentations (if assigned by instructor)
5.) Complete appropriate tests (quizzes, major examinations, and a final examination)

Assessment will be conducted using a variety of methods. Objective questions such as multiple-choice, matching, true/false and fill-in-the blank will be used as will subjective questions which may demand narrative identification, lengthy narrative responses, and also critical thinking. Students will be tested on materials presented in class and are expected to develop listening and note-taking skills. The weight, style, and nature of the specific assessment tools is left to the discretion of the individual instructor, but each instructor must place emphasis on the development of writing and critical thinking skills. There will be at least one outside assignment involving a research paper, book report, computer assignment, or such academic activity as the instructor deems important to augment the testing process and to improve reading and writing skills. Balance in testing to accommodate for varied learning styles is the desired goal.

Evaluation of student progress in this course will incorporate a Pre-Test/Post-Test and the use of a standardized, comprehensive exit examination. The Pre-Test will consist of fifty (50) multiple choice questions to be given during the first two weeks of instruction. The test is divided into five chronological periods: 1492-1763; 1764-1799; 1800-1844; 1845-1859; 1860-1877.

The post-test will also serve as the standardized, comprehensive exit examination. It will consist of fifty (50) multiple-choice questions different from the Pre-Test, but divided into the same categories as the Pre-Test. The Post-Test should be given the same day as the final examination and be part of that examination or stand alone as the final examination. The weight of the Post-Test to the student’s course grade and the percentage assigned it as part of the final examination will be at the discretion of the instructor. The recommended weight of the Post-Test as part of the course grade is within the 10 to 50% range and all students must complete the exam.

The results of both the Pre-Test and Post-Test will be analyzed and discussed by the department. This will enable department members to evaluate strengths and weaknesses in the curriculum or the text, provide data regarding different class formats, schedules, and campus locations, and identify areas of improvement for the instructor. This measurement system serves as a valuable diagnostic instrument for the improvement of curriculum materials and classroom management in regard to improving student learning and developing intellectual competencies.
