Course Catalog Description: A survey of the social, political, economic, cultural, religious, and intellectual history of Europe and the Mediterranean world from the 17th century to the modern era. Themes that should be addressed in Western Civilization II include absolutism and constitutionalism, growth of nation states, the Enlightenment, revolutions, classical liberalism, industrialization, imperialism, global conflict, the Cold War, and globalization.

Prerequisites/Co-requisites – TSI satisfied in Reading and Writing.

Purpose: It is the intention of this Administrative-Master Syllabus to provide a general description of the course, outline the required elements of the course and to lay the foundation for course assessment for the improvement of student learning, as specified by the faculty of Wharton County Junior College, regardless of who teaches the course, the timeframe by which it is instructed, or the instructional method by which the course is delivered. It is not intended to restrict the manner by which an individual faculty member teaches the course but to be an administrative tool to aid in the improvement of instruction.

I. Topical Outline – Each offering of this course must include the following topics (be sure to include information regarding lab, practicum, clinical or other non-lecture instruction):

The instructor will organize the course material in such a way that the main topics of modern Western Civilization will be surveyed in a balanced manner. It is within the prerogative of the instructor to assign the exact amount of time (days, weeks, etc.) to be spent on each of the primary periods and topics involved. Some of the basic topics to be included will be:

1.) The Age of European Exploration and Discovery (1480s-1600s) in which the Old World and New World collide and bring together widely different peoples, cultures, plants, and animals into a blending of worlds.

2.) European Divine-Right monarchies and the “Old Regimes” from Louis VIII to Frederick the Great (1610-1763) of Prussia.

3.) The “Enlightenment” to include cultural history, laissez-faire economics, the revolt against mercantilism, religion, politics, and philosophy in a changing Europe.

4.) The French Revolution and the rise and fall of Napoleon through the Congress of Vienna (1763-1815).

5.) Romanticism, Reconstruction of Europe, and the spread of new Revolutions in thought and politics (1815-1870).

6.) A look at the new emerging “Industrial Society” to include economics, sociology, religion, Liberalism, Utopians, Marxism, and Social Darwinism.

7.) The modernization of nations, clash of economic giants, spread of capitalism and imperial rivalry on all continents, and finally the drift towards an almost inevitable violence on a global scale (1870-1914).

8.) World War I, Economic Depression, and World War II. Special attention will be paid to the rise of fascism, the rise of Nazi Germany, the nature of Adolf Hitler, the Jewish Holocaust, and lessons for all mankind (1914-1945).

9.) The Cold War, rebuilding from the ashes, the collapse of Communism, the European Community and the Economic Union, and the emergence of Asia and Africa into a truly global marketplace (1945-2000)

10.) The dawn of the twenty-first century with many new unresolved questions such as environmental challenges, the dangers of nuclear proliferation, decline of traditional institutions, continued violence and terrorism, and the philosophical clash between traditional ethics and radical new advances in emerging technology.

It is within the prerogative of the instructor to cover additional topics.

III. Required Text(s), Optional Text(s) and/or Materials to be Supplied by Student.

Individual titles selected by the instructor available in library collection. Primary documents may be distributed to students, made available from instructor web site, or placed on reserve in the library.

IV. Suggested Course Maximum - 35

V. List any specific spatial or physical requirements beyond a typical classroom required to teach the course.

Western Civilization II is taught on-line only. Students must have access to working computer and all appropriate technology.

VI. Course Requirements/Grading System – Describe any course specific requirements such as research papers or reading assignments and the generalized grading format for the course

The grading scale used for all tests, papers, and projects will be as follows:

90% to 100% = A  
80% to 89% = B  
70% to 79% = C  
60% to 69% = D  
Below 59% = F

Instructors may also use a point system to determine final scores as long as this point system is clearly outlined in the instructor’s syllabus.
Writing Project(s) – 25-50%

(may include research papers, exam essays, book/film reviews, and/or response papers)

Exams – 25-75%

(may include quizzes, unit exams, exam essays, and/or oral presentation)

Participation – 0-50%

(may include daily assignments, projects, attendance, and/or class participation)

Departmental Post-test – 10-25 %

Professors will use a combination of the above totaling 100% and enumerate the exact breakdown on the student syllabus.

Instructors may use the narrative/lecture method of instruction to impart factual information and to suggest to students the different interpretations of United States history. The narrative method is also useful for setting the stage for class discussions.

Class discussion between students and instructors is encouraged for the purpose of developing in students the ability to speak before others about historical events. Class discussions should arise from the readings that students complete and from points of interest and the interpretation of facts that emerge in class, especially those relevant to students.

Students will be required to complete written work or to prepare oral presentations to further elaborate or explain what has been presented and discussed by the instructor. These requirements are designed to challenge the student to analyze and critique the material presented. The written work may be in the form of essay test topics, book reviews, reports on articles in scholarly journals, or other written assignments as assigned by the instructor. Oral presentations may be designed as debates, informative overviews, or persuasive monologues.

Minimum requirements include the following:
1.) Attend class in accordance with college policy and as stipulated by the instructor.
2.) Complete appropriate reading assignments made by the instructor
3.) Complete appropriate writing assignments based on the readings, classroom presentations and discussion
4.) Complete oral presentations (if assigned by instructor)
5.) Complete appropriate tests (quizzes, major examinations, and a final examination)

Assessment will be conducted using a variety of methods. Objective questions such as multiple-choice, matching, true/false and fill-in-the-blank will be used as well as subjective questions which may demand narrative identification, lengthy narrative responses, and also critical thinking. Students will be tested on materials presented in class and are expected to develop listening and note-taking skills. The weight, style, and nature of the specific assessment tools is left to the discretion of the individual instructor, but each instructor must place emphasis on the development of writing and critical thinking skills. There will be at least one outside assignment involving a research paper, book report, computer assignment, or such academic activity as the instructor deems important to augment the testing process and to improve reading and writing skills. Balance in testing to accommodate for varied learning styles is the desired goal.

Evaluation of student progress in this course will incorporate the use of a standardized, comprehensive exit examination. This Post-Test will be 25 questions and should be given the same day as the final examination. It may be part of that examination or stand alone as the final examination. The weight of the Post-Test to the student’s course grade and/or the percentage assigned it as part of the final examination will be at the discretion of the instructor. The recommended weight of the Post-Test as part of the course grade is within the 10 to 50% range and all students must complete the exam.
