Course Title – Fundamentals of Mathematics II

Course Prefix and Number – MATH 1351

Department - MATH
Division – Math and Science

Course Type: (check one)
☐ Academic General Education Course (from ACGM – but not in WCJC Core)
☒ Academic WCJC Core Course
☐ WECM course (This course is a Special Topics or Unique Needs Course: Y ☐ or N ☐)

Semester Credit Hours #: Lecture hours #: Lab/Other Hours #: 3:3:0

Equated Pay hours for course - 3

Course Catalog Description – Concepts of geometry, probability, and statistics, as well as applications of the algebraic properties of real numbers to concepts of measurement with an emphasis on problem solving and critical thinking. This course is designed specifically for students who seek middle grade (4 through 8) teacher certification.

Prerequisite: MATH 1350, College Algebra (MATH 1314) or the equivalent

Type: ACAD

Prepared by Dale Neaderhouser  Date 8-24-13
Reviewed by department head Dale Neaderhouser  Date 8-24-13
Accuracy verified by Division Chair  Kevin Dees  Date 8-24-13

Approved by Dean or Vice President of Instruction gg hunt  Date 8-24-13
I. Topical Outline – Major areas of coverage:
   A) Probability concepts
      1. Describing and analyzing data
      2. Graphing data and making predictions
      3. Sampling and simulations
   B) Probability: simple and multistage
   C) Geometric figures
      1. Plane
      2. Polygons
      3. Space
      4. Symmetric
   D) Systems of measurement
   E) Area and perimeter
   F) Volumes and surface area
   G) Congruence
   H) Similarity
   I) Constructions

Outcomes assessed by:

Hour exams  
Final  
Short Answer  
Discussion Board
III. Required Text(s), Optional Text(s) and/or Materials to be Supplied by Student.
   A Problem Solving Approach to Mathematics for Elementary School Teachers, 10th edition,
   Billstein/Libeskind/Lott, Pearson Addison-Wesley Publisher (required)
   Calculator (instructor’s discretion)

IV. Suggested Course Maximum - 35

V. List any specific spatial or physical requirements beyond a typical classroom required to teach the course.
   Students must have computer access to the WCJC website, their WCJC student email and online accounts. WCJC has open computer labs, with internet access, on all campuses for students to use.

VI. Course Requirements/Grading System – Describe any course specific requirements such as research papers or reading assignments and the generalized grading format for the course
   a. Average of four or more one hour exams 65-85%
   b. Homework grade 0-10%
   c. Comprehensive Department Final 15-25%
   Or grading as specified by the instructor.
   A= 90-100  B= 80-89  C= 70-79  D= 60-69  F= 59 and below

VII. Curriculum Checklist
   ☐ - Academic General Education Course (from ACGM – but not in WCJC Core)
      No additional documentation needed
   ☒ - Academic WCJC Core Course
      Attach the Core Curriculum Review Forms
      • ☒ Critical Thinking
      • ☒ Communication
      • ☒ Empirical & Quantitative Skills
      • ☐ Teamwork
      • ☐ Social Responsibility
      • ☐ Personal Responsibility
   ☐ - WECM Courses
      If needed, revise the Program SCANS Matrix & Competencies Checklist.
Core Objective: **Critical Thinking Skills**—to include creative thinking, innovation, inquiry, and analysis, evaluation and synthesis of information

</tbody>
</table>

- **Simple probability (AMS SLO #B)**
  - A word problem (application) where the student must identify variables, assemble the correct formulas and solve for the desired result. Including a brief paragraph explaining what was done.
  - A quiz, test or discussion board artifact showing the student’s written answer. Grading for correctness and the rubric for communication will assess this.

- **Basic statistics: 1. Describing, analyzing, and graphing data (AMS SLO #A1)**
  - A word problem (application) where the student must identify variables, assemble the correct formulas and solve for the desired result. Including a brief paragraph explaining what was done.
  - A quiz, test or discussion board artifact showing the student’s written answer. Grading for correctness and the rubric for communication will assess this.

- **Area, perimeter, volume, and surface area. (AMS SLO #D)**
  - Have the student grade an incorrect problem. The student should write a brief paragraph stating what was done incorrectly and what must be done to correct the solution.
  - A quiz, test or scanned artifact showing the student’s written answer. Grading for correctness and the rubric for communication will assess this.
### Core Curriculum Review Form

**Foundational Component Area:** **Mathematics**

**Course Prefix & Suffix:** Math 1351

**Core Objective:** **Empirical and Quantitative Skills**—to include the manipulation and analysis of numerical data or observable facts resulting in informed conclusions

*Student Learning Outcome supporting core objective:* For each core objective, there must be at least two different methods of assessment.
