Additional Course Information

Topical Outline: Each offering of this course must include the following topics (be sure to include information regarding lab, practicum, and clinical or other non-lecture instruction).

Utilization of the nursing process to care for stable, uncomplicated clients in the health care environment under direct supervision of the clinical professional. Students are required to utilize the nursing skills learned in didactic courses safely and correctly. Students are required to apply knowledge and clinical judgment under supervision of the clinical professional to care for assigned clients safely.

Course Learning Outcomes:

Learning Outcomes – Upon successful completion of this course, students will:

As outlined in the learning plan, apply the theory, concepts, and skills involving specialized materials, tools, equipment, procedures, regulations, laws, and interactions within and among political, economic, environmental, social, and legal systems associated with the occupation and the business/industry
Will demonstrate legal and ethical behavior, safety practices, interpersonal and teamwork skills, and appropriate written and verbal communication skills using the terminology of the occupation and the business/industry

Methods of Assessment:

Client assignment and care in a health care facility, clinical evaluation tool, clinical proficiencies

Required text(s), optional text(s) and/or materials to be supplied by the student:

Required textbooks: Fundamental of Nursing Care, 3rd edition, Taber's Cyclopedic Medical Dictionary, 23rd edition, Davis's Drug Guide, 16th edition, Davis's Comprehensive Manual of Laboratory and Diagnostic Tests, 8th edition
Materials supplied by the student: transportation to the assigned health care site, liability insurance, required uniform, completion of the Hepatitis B immunization series and all other required immunizations and titers, stethoscope, manual sphygmomanometer, paper, clinical forms, black pen, penlight, watch with a second hand, bandage scissors

Suggested Course Maximum:

40

List any specific or physical requirements beyond a typical classroom required to teach the course.

Health care facility

Course Requirements/Grading System: Describe any course specific requirements such as research papers or reading assignments and the generalized grading format for the course.

Students are expected to read assignments from textbooks and provided handouts before attending class and utilize correct medical terminology throughout the course. Students are to prepare a case study for each assigned patient on the forms found in the syllabus. These forms are submitted on Monday by 8:00 am to their clinical instructor. No late assignments are accepted.

Students will receive one (1) individualized written clinical evaluation by the supervising clinical instructor based upon observed clinical performance, professional behavior and communication, and completion of case studies and medication information sheets.

The final course grade is based upon:

Clinical III Evaluation Tools	60%
Case Studies	20%
Medication Information Sheets	10%
NCLEX-PN Practice Tests	5%
Average of Clinical Pharmacology Tests	5%

Students must achieve a grade of 80% in each of the grade components, and a score of 3 or better on all critical elements of the Evaluation Tool. In order to pass this course and complete the Vocational Nursing program, students must attain a **grade of 80 or better**.

Grading format:

90-100=A;

89-80=B;

0-79=F.

No grades are rounded up.
