Additional Course Information

Topical Outline: Each offering of this course must include the following topics (be sure to include information regarding lab, practicum, and clinical or other non-lecture instruction).

Utilization of the nursing process to care for stable, uncomplicated patients in the health care environment under direct supervision of the clinical professional. Students are required to utilize the nursing skills learned in didactic courses safely and correctly. Students should apply knowledge and clinical judgment under supervision of the clinical professional.

Course Learning Outcomes:

Learning Outcomes – Upon successful completion of this course, students will:

As outlined in the learning plan, apply the theory, concepts, and skills involving specialized materials, tools, equipment, procedures, regulations, laws, and interactions within and among political, economic, environmental, social, and legal systems associated with the occupation and the business/industry
Will demonstrate legal and ethical behavior, safety practices, interpersonal and teamwork skills, and appropriate written and verbal communication skills using the terminology of the occupation and the business/industry

Methods of Assessment:

Patient assignment and care within the health care facility; clinical evaluation tool

Required text(s), optional text(s) and/or materials to be supplied by the student:

Required textbooks: Fundamental of Nursing Care, 3rd edition, Taber's Cyclopedic Medical Dictionary, 23rd edition, Davis's Drug Guide, 16th edition, PDQ Notes, Davis's Comprehensive Manual of Laboratory and Diagnostic Tests, 8th edition.

Materials supplied by the student: transportation to the assigned health care site, liability insurance, required uniform, completion of the Hepatitis B immunization series and all other required immunizations and titers, stethoscope, manual sphygmomanometer, paper, clinical forms, black pen, penlight, watch with a second hand, bandage scissors, simple calculator

Suggested Course Maximum:

45

List any specific or physical requirements beyond a typical classroom required to teach the course.

Health care facility

Course Requirements/Grading System: Describe any course specific requirements such as research papers or reading assignments and the generalized grading format for the course.

Students are expected to read assignments from textbooks and provided handouts before attending class and utilize correct medical terminology throughout the course. Students are to prepare a case study for each one assigned patient client on the forms found in the syllabus. These forms are submitted on Monday by 8:00 am to their clinical instructor. No late assignments are accepted.

Students will receive two (2) individualized written clinical evaluations by the supervising clinical instructor based upon observed clinical performance, professional behavior and communication, clinical proficiencies, and completion of case studies and medication information sheets.

The final course grade is based upon:

The average of 2 Clinical II Evaluation Tools	60%
Case Studies	15%
Medication Information Sheets	15%

Clinical Proficiencies 10%

Students must achieve a grade of 75% in each of the grade components, and a score of 3 or better on all critical elements of the Evaluation Tool to pass this course. In addition, the student must attain a course grade of 75 to continue in the Vocational Nursing program.

Grading format:

90-100=A;

89-80=B;

79-75=C;

0-74=F.

No grades are rounded up.
